2018 Annual Report for the Healing Touch Professional Association

# Letter from Your Executive Director

Dear beloved members and larger community,

Perspective fascinates me. What we see when we look forward, depends entirely on our point of view; our alignment within time and space.

So much of my typical perspective in this role oscillates between present moment and forward looking. I answer the questions “*Where are we? Who are we? Where will we be? Who will we become?*” In this moment, writing this letter, I have an amazing opportunity to get into my imaginative space ship and go high and look backwards to answer the question “*Where were we? Who have we become?*”

What a dear and special opportunity; what a loving gift; the gift of reflection is...

Last year, because of the changes we had lived through, it felt as though we were almost new (even though we had been here 9 years already). We were almost new because, we had stepped into a new space together and everything was changing and different. We were new and we were building and we were creating. 2017 was a year of compassionate re-building.

2017 was a year where there was discernment about what to keep and what to let go of. Perhaps 2017 was a year of working in the organization’s liver... The filtering. The purifying. The regeneration.

My belief is that in the process of filtering, we kept what was sturdy in our foundation: we kept the heart- and Healing Touch-centered core principals, foundational concepts and philosophies to inform our programs and the ways in which we “run” our organization. In the process of purifying, we streamlined our processes to be more in synch with and supportive of the vision and mission of the organization. In the process of regeneration, our programs and infrastructure were re-born into new forms; forms that can continue to support larger growth while still maintaining intimacy, respect, caring, and co-creative partnership with our members and our larger community.

2017 was a tremendous year of growing “up” together. My promise is that 2018 will be a tremendous year in strengthening that togetherness; deepening in our compassionate service of your sacred service; and I wish to include more opportunities for you to be heard, seen, and acknowledged for your contributions both locally and Nationally through your gifts of living and practicing Healing Touch.

May we continue to hold each other in the beauty of love, caring, and in the spirit of Healing Touch.

In service of your Service,  
Amelia Vogler, BA, MS, HTCP/I  
HTPA Executive Director

## Practice Protection

HTPA proudly brings its members Liability Insurance through our partnership with Energy Medicine Professional Association (EMPA).

EMPA liability insurance provides comprehensive coverage. If you are named in a lawsuit, an experienced attorney will represent you. Whatever the outcome, this policy pays for legal fees, court costs, and any judgments involving claims or allegations as outlined in the coverage description.

EMPA Liability insurance will . . .

- Pay for accidents that cause injury to your clients such as slip and fall
- Pay for negligence due to misconduct or lack of skills
- Protect you from suits involving libel, slander or invasion of privacy
- Cover claims made against you for damage or injury resulting from a product you used on a client
- Cover damage to your rented workspace
- Cover legal defense costs if you are sued
- Fulfill your professional responsibility to your client

We invite you to explore the benefits of having liability insurance for your practice. Visit the HTPA website for more information.

## INSURANCE INITIATIVE REPORT **HTPA Insurance Initiative** *Supporting Your Profession*

The HTPA Insurance Initiative Committee has evolved with new form and focus to best support the Category I Provider Taxonomy (CPT) code for insurance billing reimbursement. At this time, the financial requirements for the research are not sustainable for us; the need for established relationships across the field of healthcare are currently being created; and local awareness at the medical provider-level is largely still needed to support use of a code, when one is available. For these three reasons, we found the process currently challenging. As it is that we release to the process of trusting right timing, the American Holistic Nurses Association contacted our office to inform us that they are working on a code for Energy Medicine that will include Healing Touch. Sue Walker, Director of Education at Healing Touch Program, is the new contact for this effort and continues to stay vigilant around receiving information about this effort.

Currently, the Insurance Initiatives is researching ways in which we can support this effort. It is very important that when a code is available, that the local medical providers know about what Healing Touch is and what and how it is best utilized in patient care. We are currently crafting a new communication plan that will empower you, our practitioners, in “being known” as an allied health practitioner that uses Healing Touch as a supportive therapeutic offering for their patients.

This committee is comprised of standing members are Brenda Fister, Irene Bigot, Dr. Steve Sutton, and Amelia Vogler. If you are interested in supporting this communication plan, please let the office know so that we can send you an application to join this committee.

## EXHIBITION GRANT WITH HTWF

We are so proud to announce that 2017 brought a new extension of our HTPA grant money through the Healing Touch Worldwide Foundation!

Our new Exhibition Grant supports practitioners, students, and instructor’s participation at local and regional conferences as exhibitors (having a table or a booth at an event to promote the awareness of Healing Touch and a personal practice (or practices – if more than one individual is sharing the booth).

The goals are:

- to educate local communities about Healing Touch
- to allow Healing Touch Program’s presence in charitable and community-events,
- to allow practitioners to support their own practices
- to increase the visibility of the Healing Touch Worldwide Foundation
