WHO PSY-TEK IS

Psy-Tek is laboratory and a research facility offering:

- Non-invasive health screening assessments to the general public
- Non-invasive health screening assessments to health practitioners' patients
- Research and testing of:
 - frontier devices,
 - products or
 - healing modalities

PSY-TEK INTERESTS IN RESEARCH

- Promoting new, innovative and worth-while inventions from individuals, startup companies who would find it difficult to go through universities
- Helping health practitioners and individuals to live a healthier life
- Elucidating the nature of subtle energy
- Becoming a “certification center” for newly developed biofield measuring devices
- Becoming a “water testing center”

DEVICES WE WORK WITH

- GDV - Gas Discharge Visualization / Bio-Well
- Es Tek Complex
- Medical Thermal Imaging
- Biophoton system
- AMI – Apparatus for Meridian Identification
- Biofeedback (EEG, EMG, HRV, SC, etc.)
- Water testing devices
- More to come

GDV: GAS DISCHARGE VISUALIZATION

- Also called Electro-Photonic Imaging (EPI)
- An advanced form of Kirlian photography
- Developed by Dr. Konstantin Korotkov
- Generates a response of the subject in the form of electron & photon emission.
- The glow from the discharge is captured by a digital camera
